BILLY the BICYCLE Coloring Book

Sheriff David J. Schenk
Madison County
Virginia City, MT.

Does your bike have reflectors to keep you safe when it gets dark? Remember, it's hard to see at night.

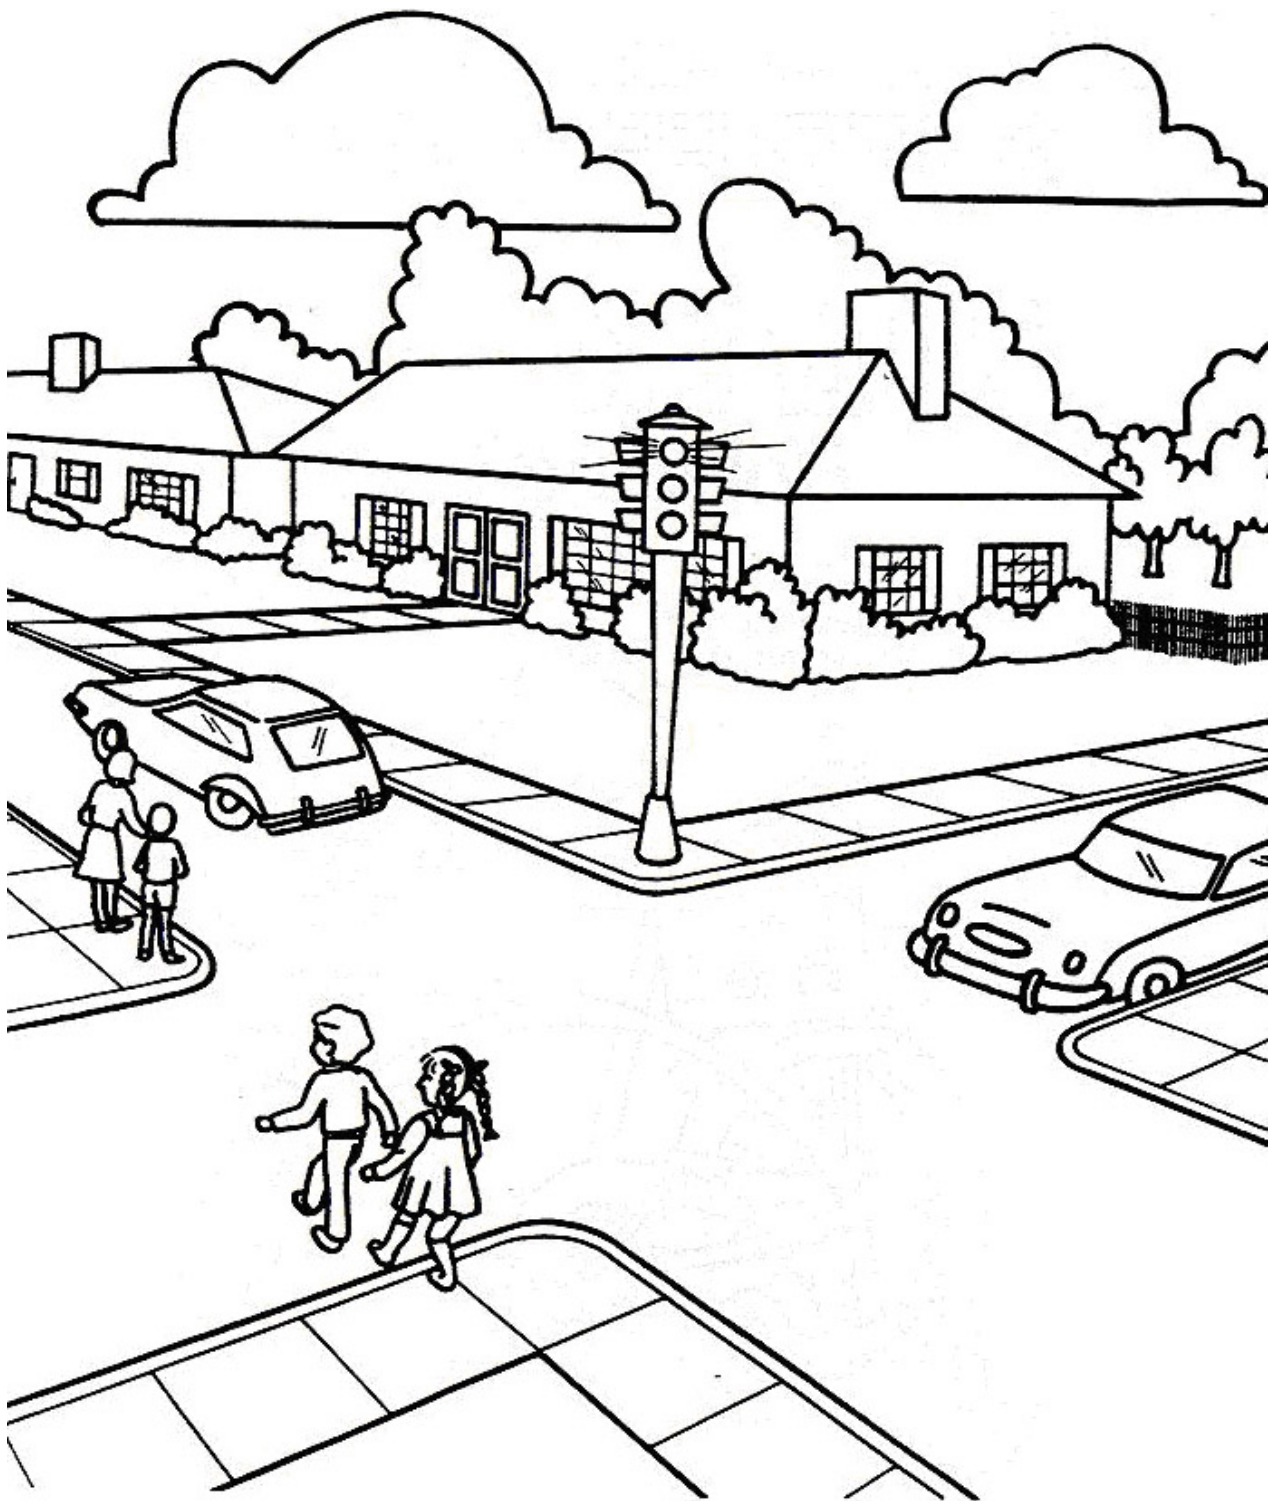

When you ride your bike, stay to the right. Make sure you ride in the same direction as the cars.

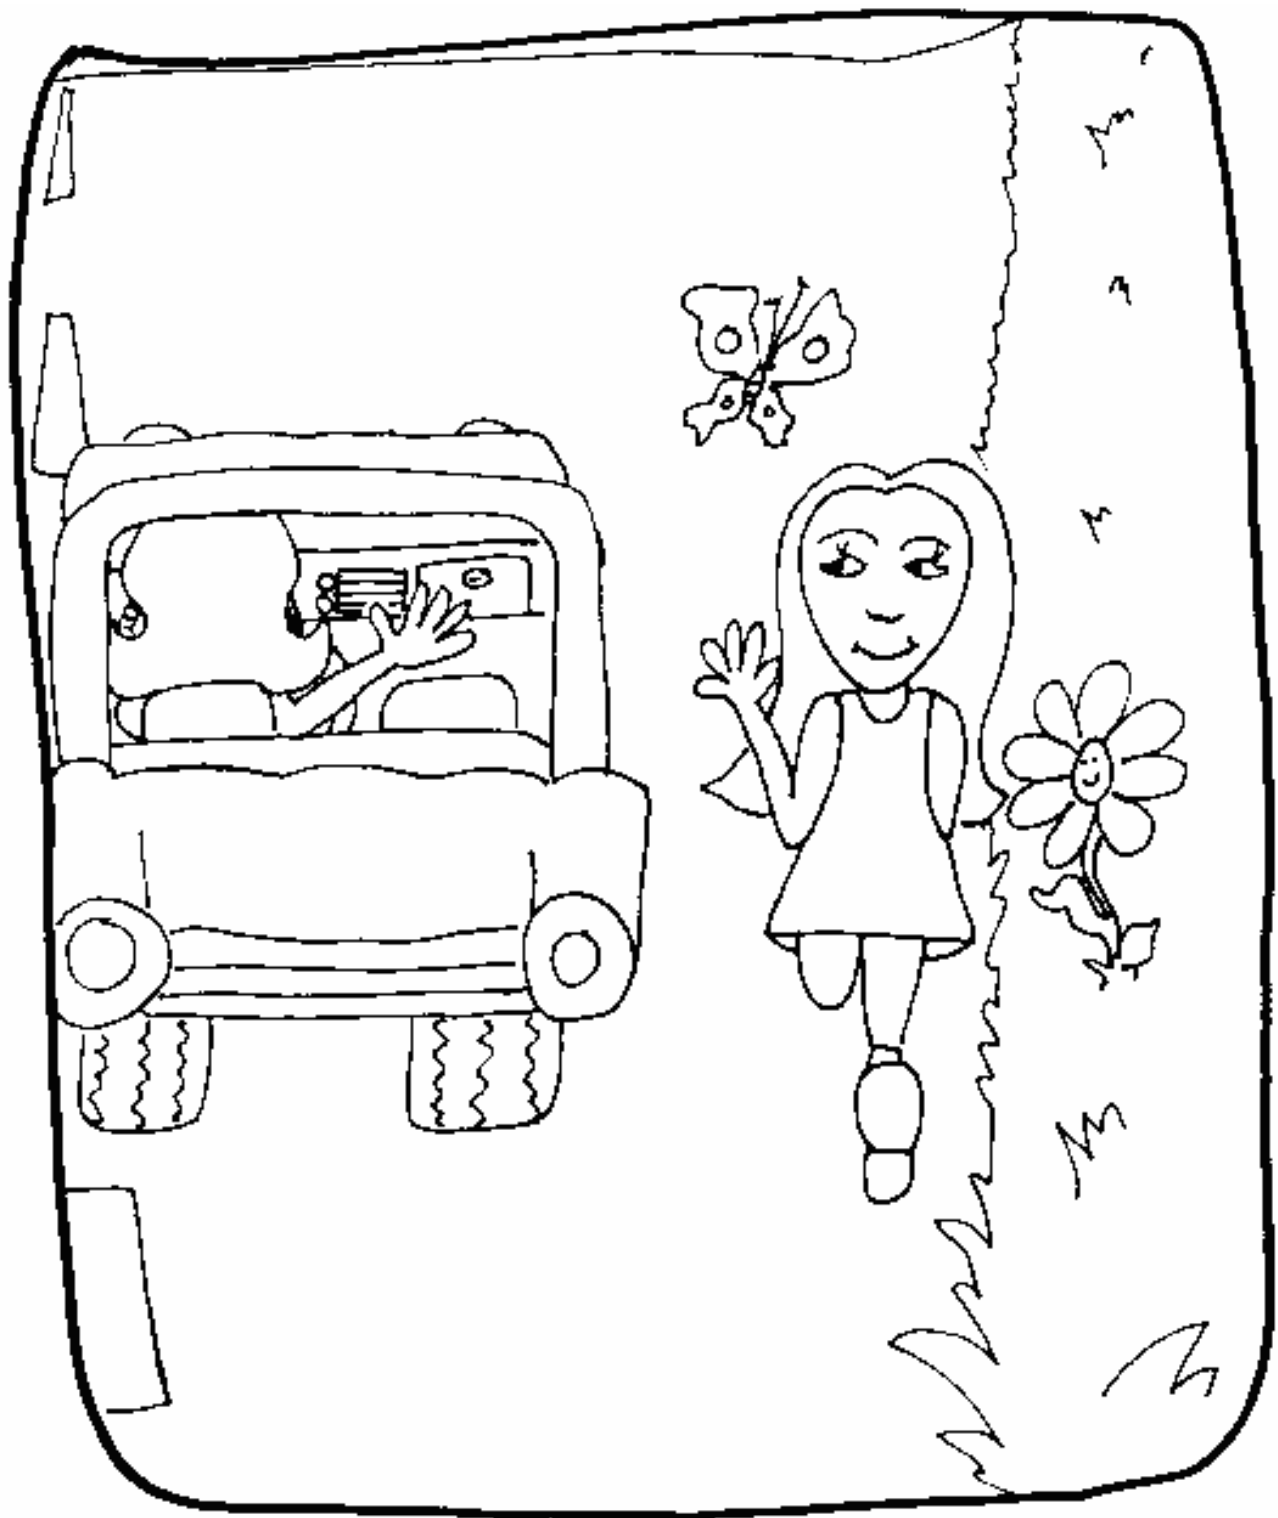

Make sure you wear bright clothes when you go out at night. If you can, carry a flashlight. It's important that people in cars can see you.

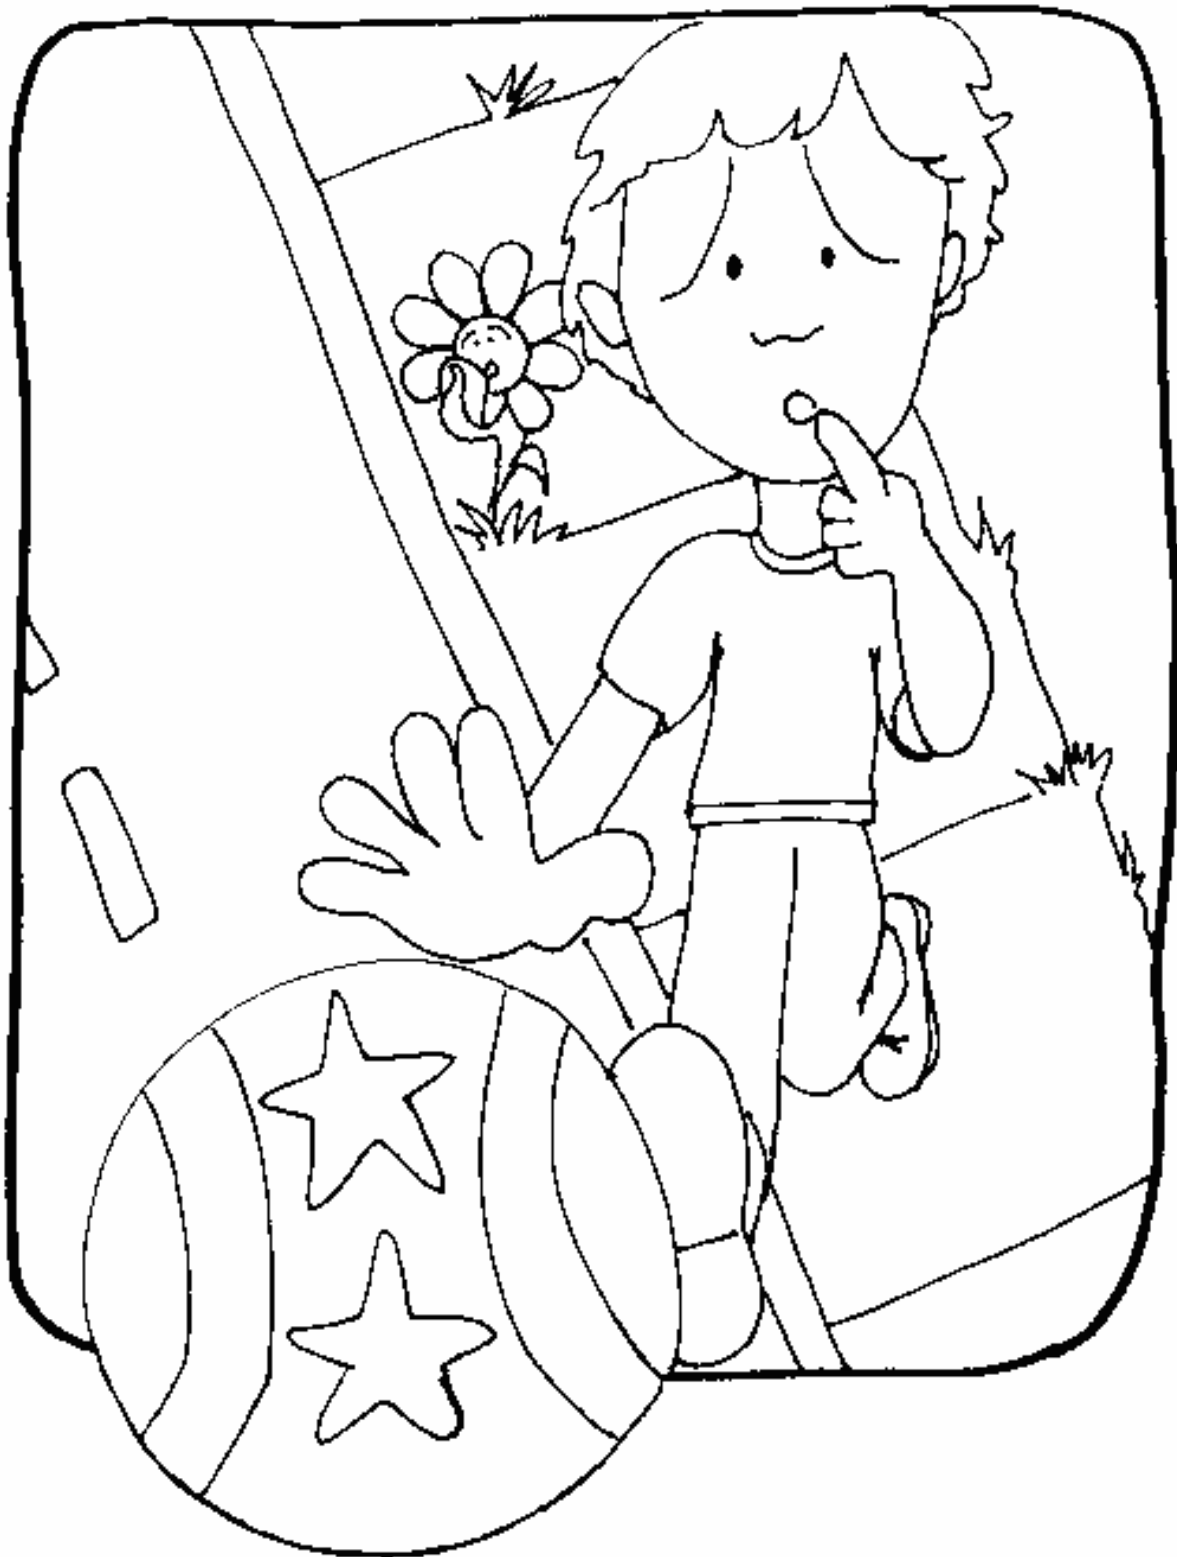

Always look to see if cars are coming before you cross the street. Look both ways!

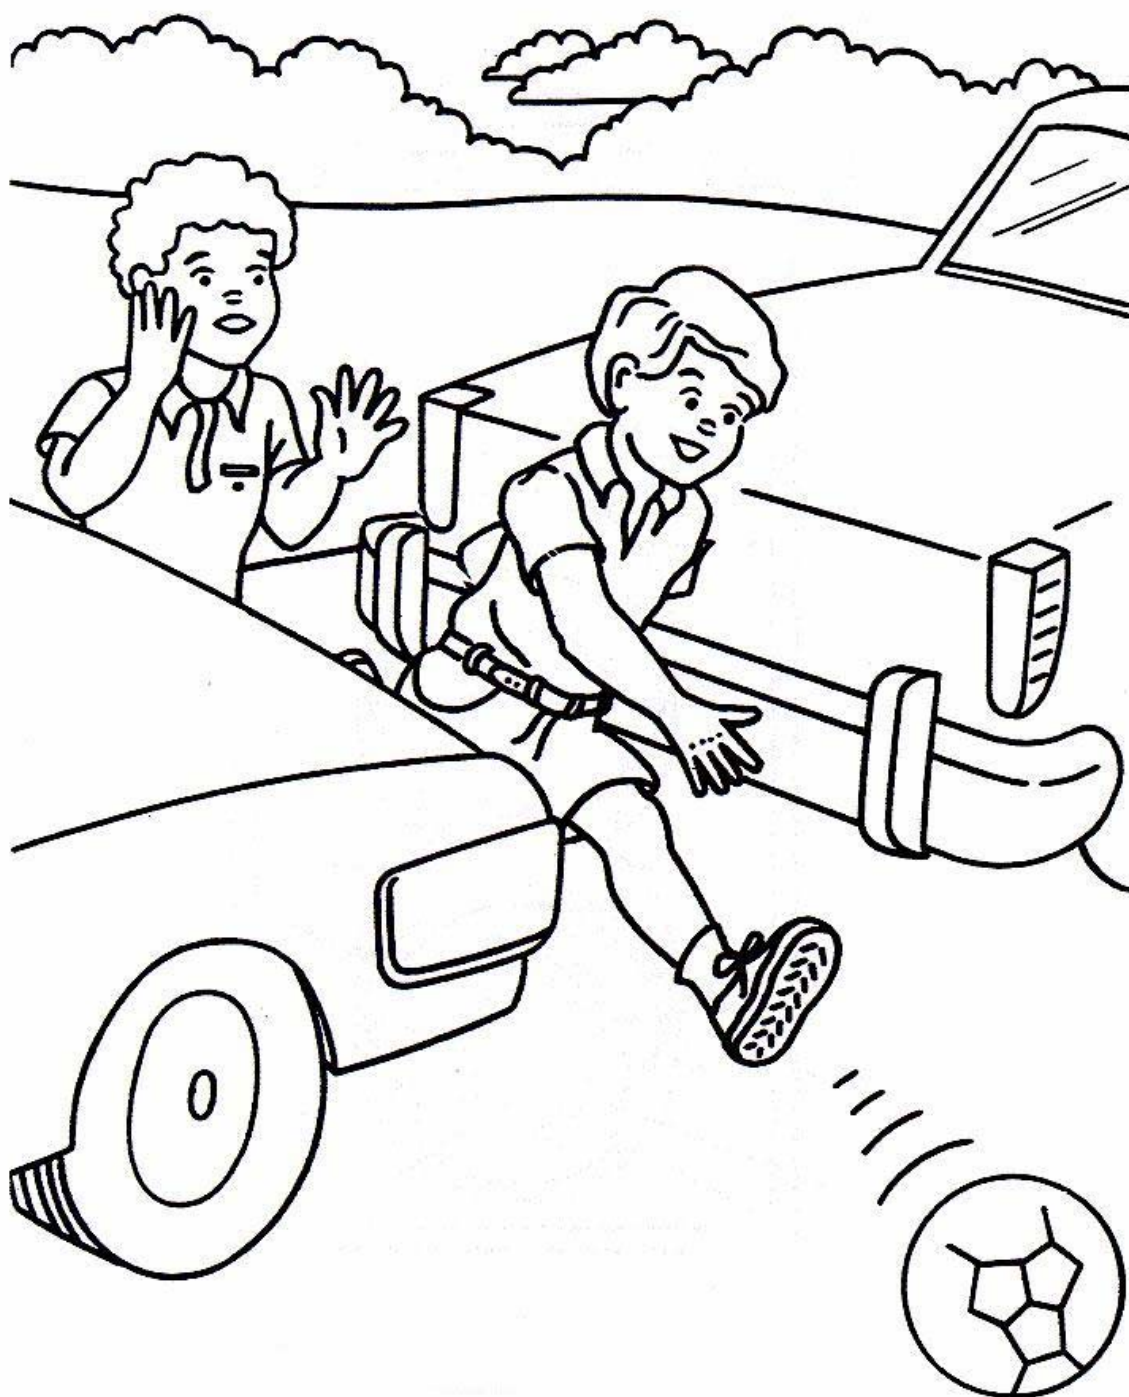

Always cross at a corner where there is a traffic light.

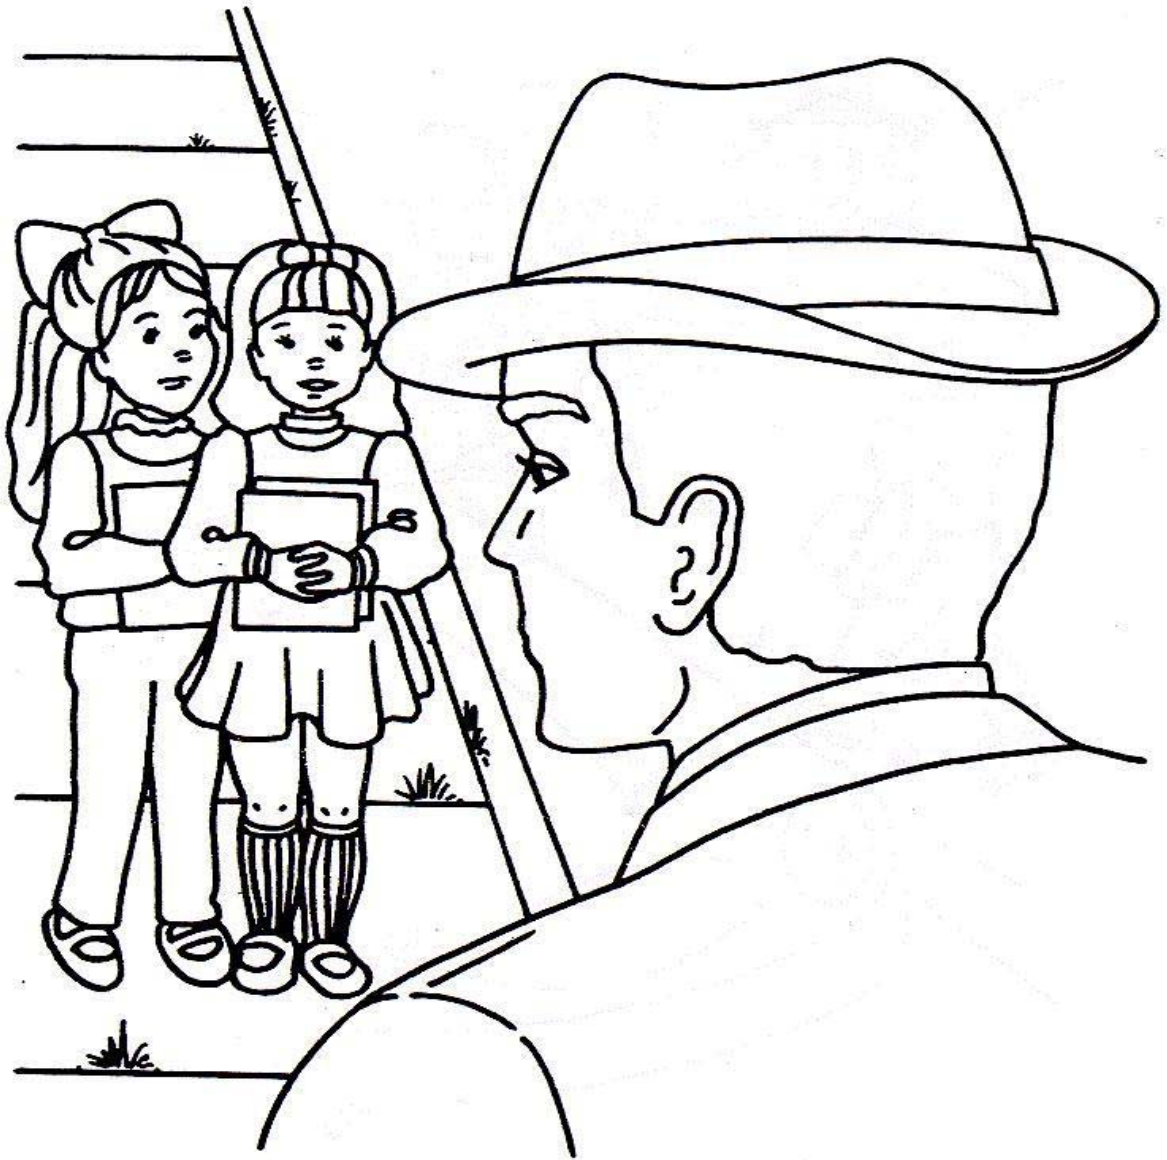

When you walk, stay to the left side of the road.
That way, you can see cars coming toward you.

Never run into the street after your toys!

Don't ever run into the street between parked cars.

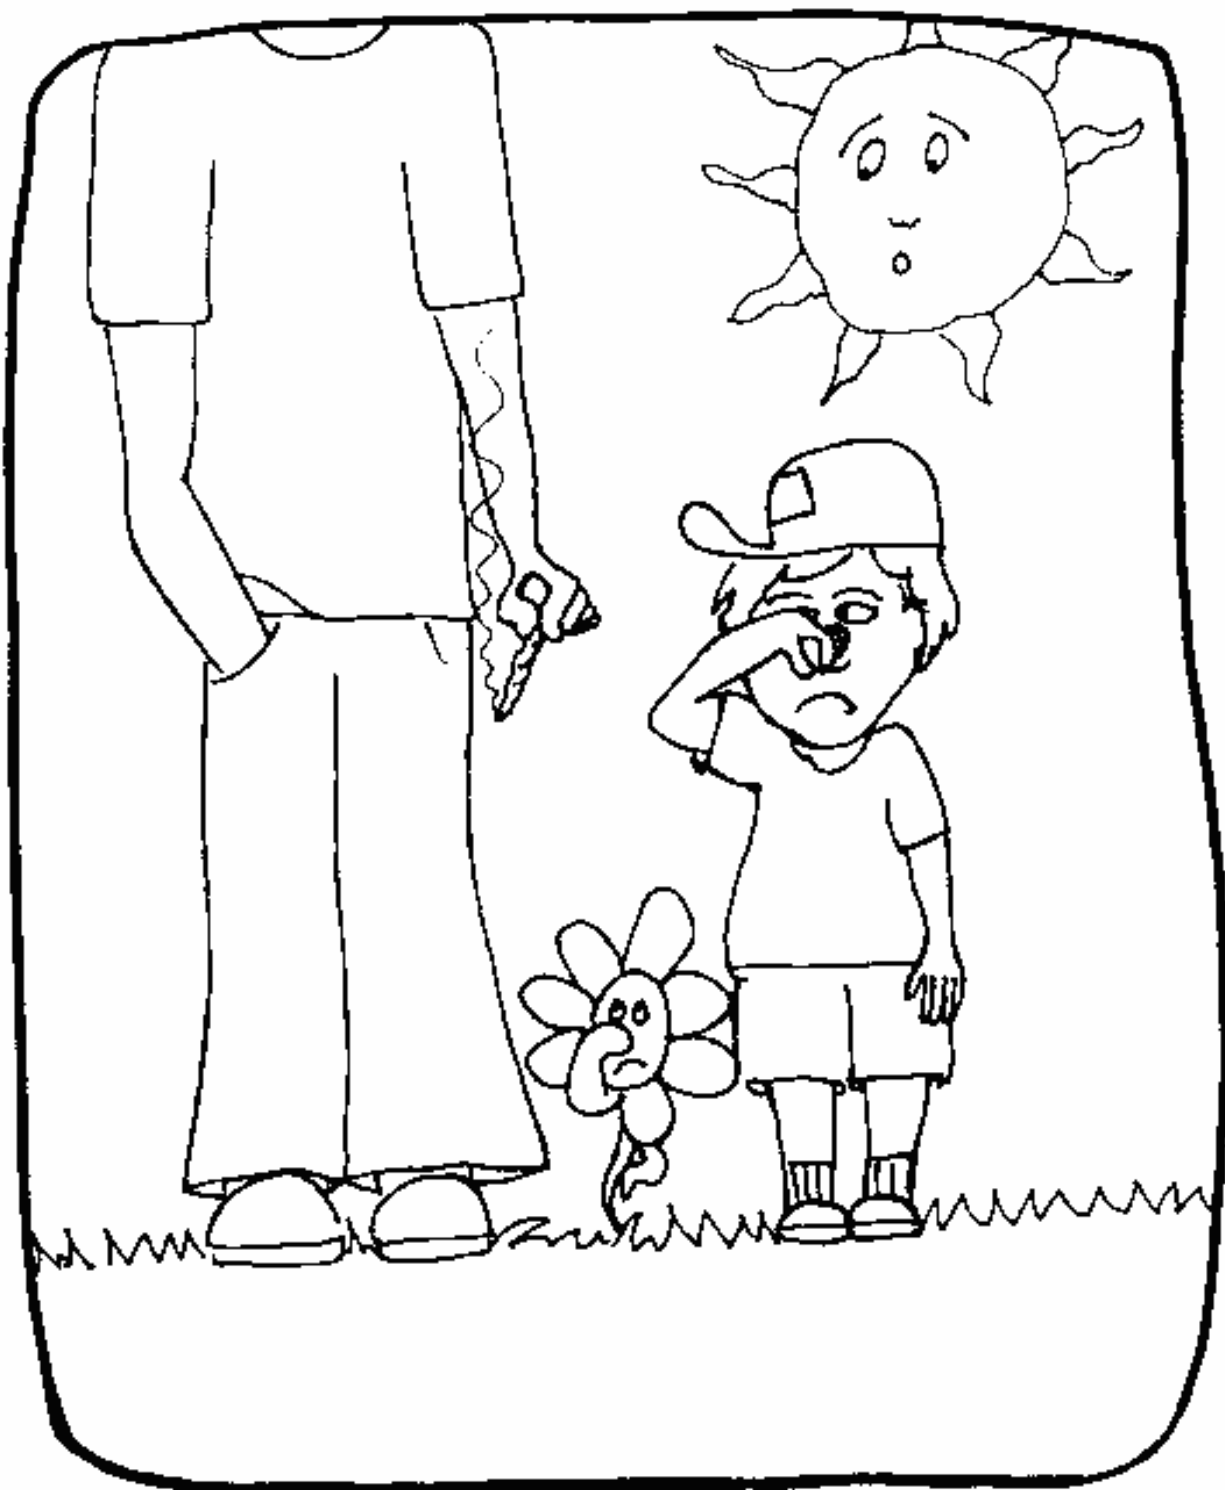

Never take candy from a stranger or go anywhere with them.

Never talk to strangers, even if they are nice!

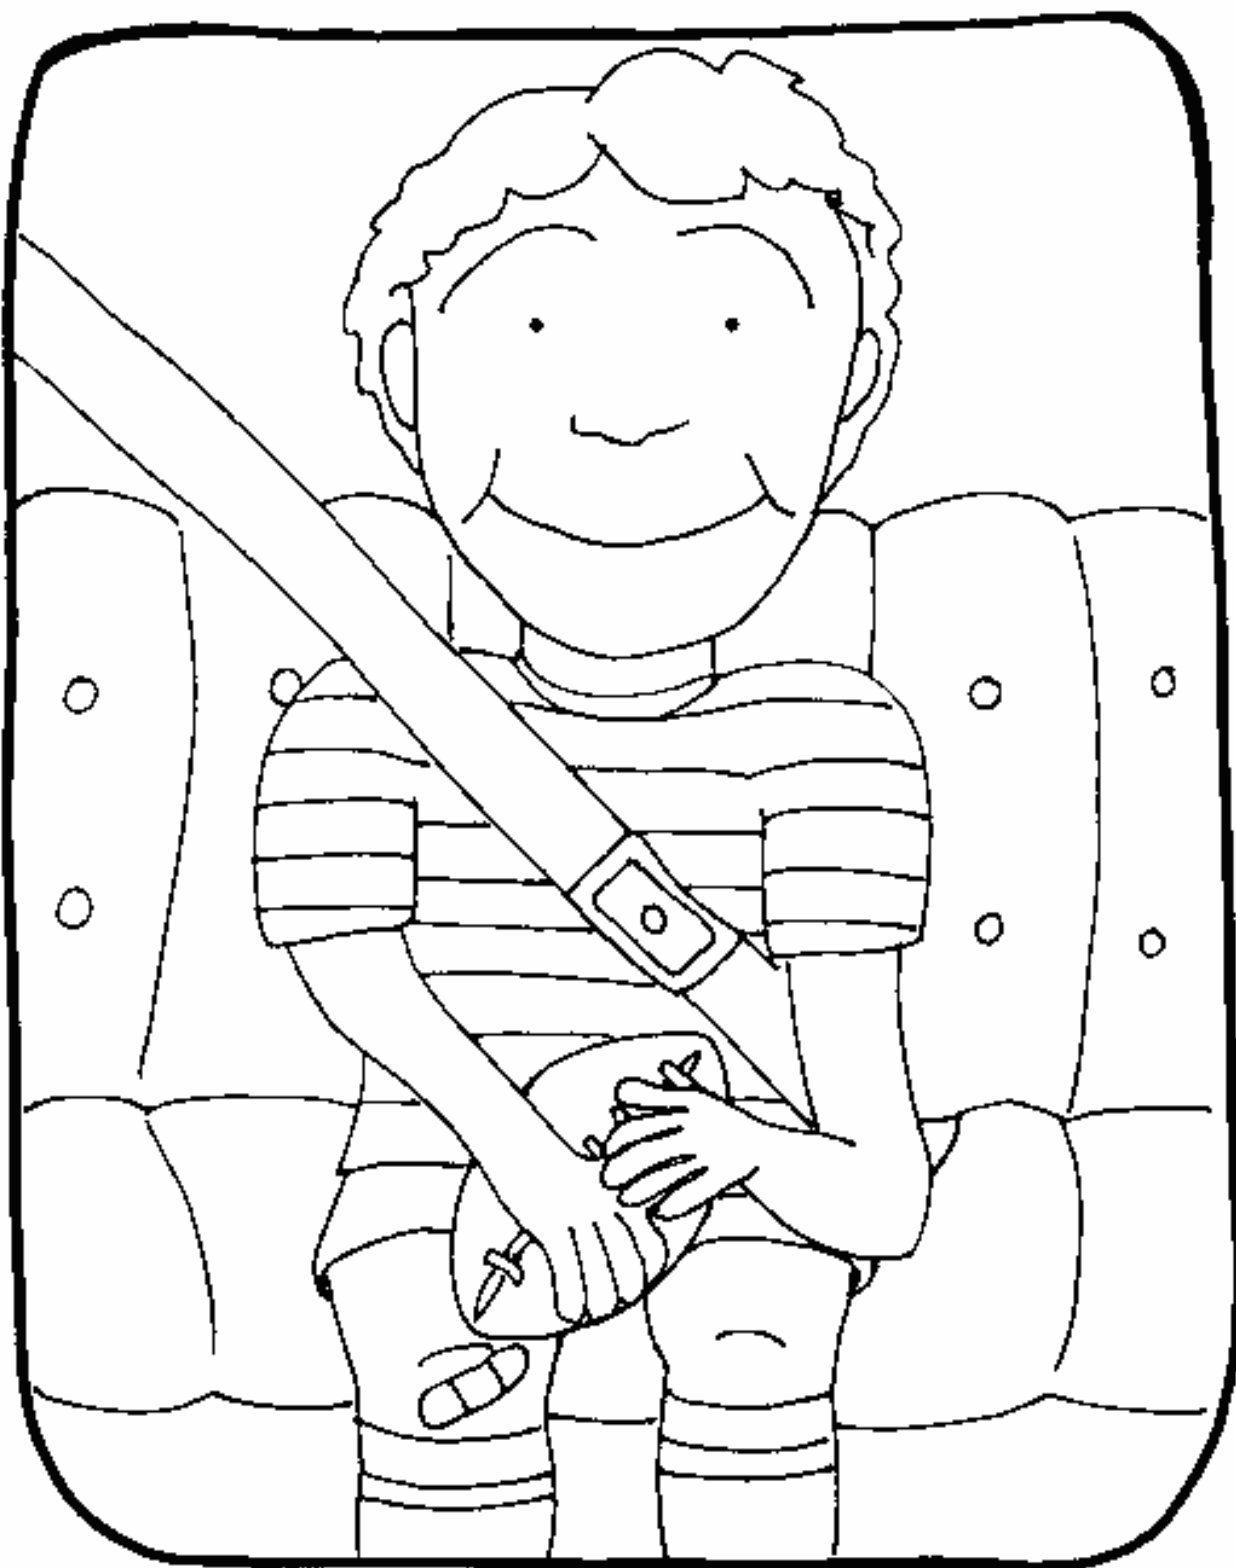

Call 911 if you need help. But don't hang up until they tell you to. They'll tell you what you should do.

Say NO to drugs; they are not cool! If anyone ever offers you drugs, tell your parents or an adult.

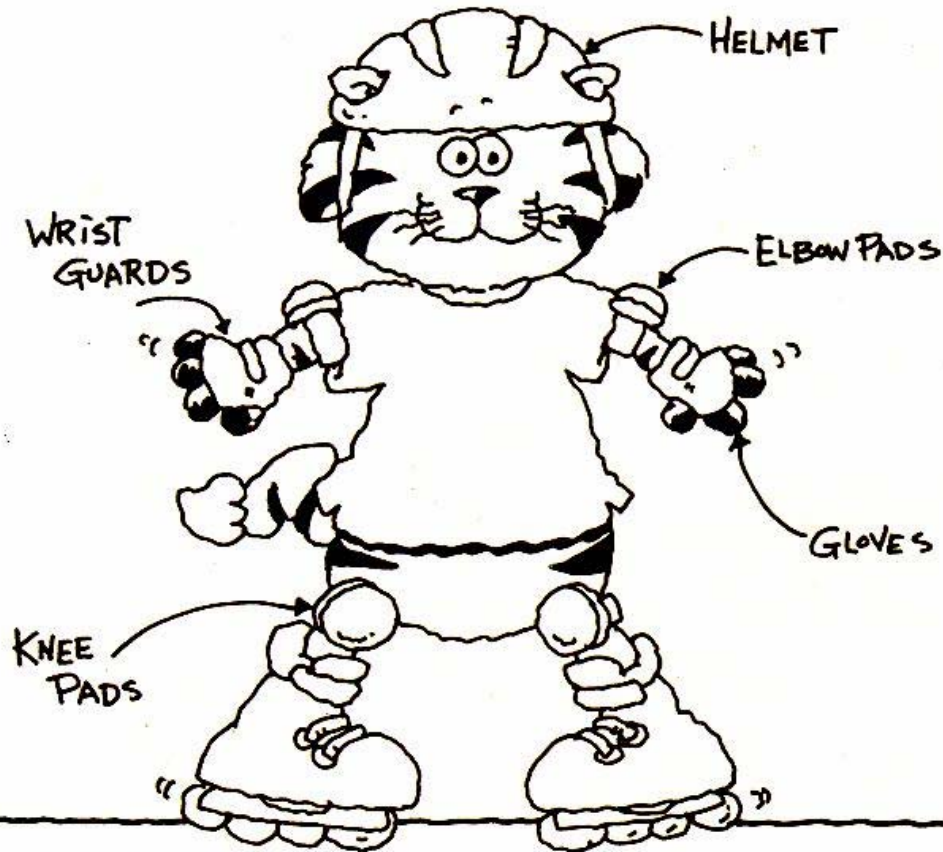

Never take medicine by yourself. Let your mother, father, doctor, or school nurse give it to you. Even good medicine can be bad if you don't really need it.

Buckle up; it's the law. Seat belts keep you safe and can save your life!

It's cool to wear protective gear before
you use skates of any kind or a skateboard.

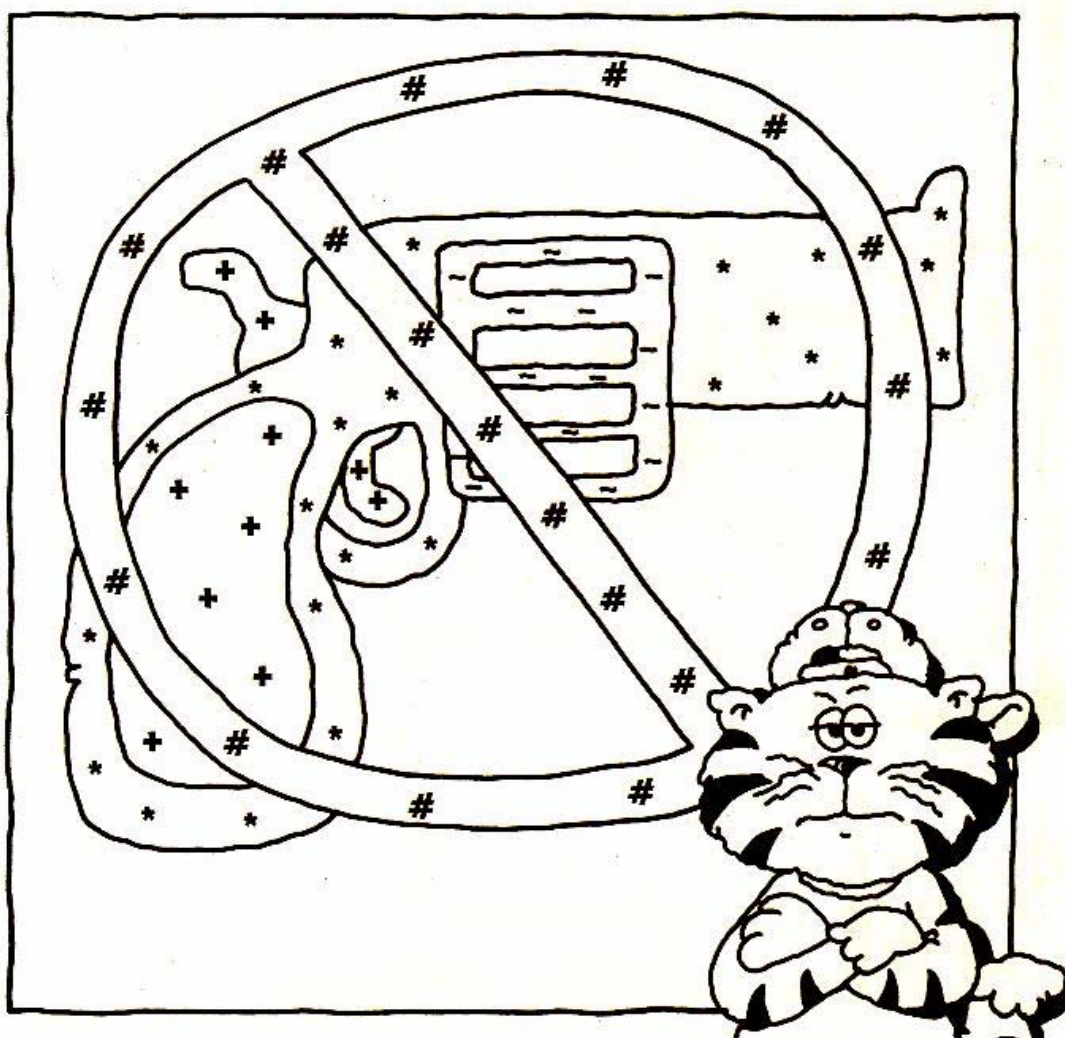

ACTIVITY: Cross out all the names of boys and girls
to learn another important safety tip about roller sports.

It is never safe for a child to touch a gun. If you ever see a gun, the coolest thing to do is stay away from it and immediately tell a grown-up about it. No matter what, do NOT touch the gun.
